

Public Spaces Expo

In association with **maylim**

21 – 22 NOVEMBER 2023 | ExCeL LONDON

WELCOME

Welcome to Public Spaces Expo, the brand-new event for those who design, build, and maintain public spaces. Our event is designed for local authorities, architects, landscape architects and commercial landscapers dedicated to creating beautiful, sustainable public spaces.

These areas provide essential spaces for people to relax, socialise, and connect with nature. Well-designed public spaces have a significant impact on community health and wellbeing, environmental sustainability and economic development.

Public Spaces Expo will ultimately help professionals in this sector to gain insight, find inspiration, and connect with like-minded individuals.

and design

Commercial
landscaping

Machinery

Green roofs
and walls

INDUSTRY PARTNERS: THE TRADE ASSOCIATIONS AND MEDIA

The Public Spaces Expo team has always had close relationships with the UK's landscaping trade membership bodies, and appreciates the work these associations do for the sector. Membership of these associations, and its correlation to the visitors at the show reflects the high calibre of audience that attends.

Landscape
Institute

£385 per m²

Minimum 18m² booking required for all space only stands. Space only stands are subject to planning and design approval by our operations department one month prior to the show taking place.

ExCeL LONDON

Accessibility

Road: Situated within London's Ultra Low Emission Zone (ULEZ), ExCeL is accessible via the M11, the North Circular or the A13.

Rail: The Docklands Light Railway (DLR) stations Custom House and Prince Regent are on the campus of the venue. Trains pull up at covered walkways leaving visitors with less than a two minute walk to the entrance.

Underground: With multiple routes via the Elizabeth, DLR and Jubilee lines, visitors can reach the venue in approximately 30 minutes from Waterloo, King's Cross St Pancras or Victoria, or in under 90 minutes from Heathrow.

Air: With direct lines to London City Airport, and quick, direct routes out of London to Gatwick Airport, Heathrow Airport, Stansted Airport, Luton Airport and Southend Airport, Outdoor Living Expo's new London venue opens up an international visitor market.

WHAT OUR VISITORS AND EXHIBITORS SAY

There was a huge amount of energy at the event, despite all of the challenges going on. A great event, once again, bringing the Industry together and creating hope and collaboration.

Chris Bridgman, Bridgman Landscapes

A great event – a real buzz about the place this year. We'll be back next year and looking forward to it.

idverde

What I've particularly enjoyed about the 2022 show is as well as dealing with installers and designers, it's a good chance for us to speak to many other companies in the same space that we can potentially partner up with and see how we can help each other.

George Palmer, Marshalls

Today I'm speaking on one of the panels about Diversity. We're actually launching and signing a Charter where the industry has joined together to look at the challenges we have in bringing new people from different backgrounds whether it's cultural, gender and colour - into the industry.

Adrian Wickham, Glendale

It's a great networking opportunity, first and foremost but it's about being here to be able to promote BALI as an association. But we're also here as GoLandscape, improving career prospects within the industry, encouraging new people to come into the industry to address the skills shortage.

Wayne Grills, British Association of Landscape Industries

It was great to exhibit at this year's event. We enjoyed catching up with some familiar faces and getting to know some new ones too!

Alistair Bayford, Maylim
